Mr. Dawes,

Our office has been retained by Select Specialty Hospital - Ann Arbor ("SSH") to assist them in pursuing the reimbursement for services provided to your client, Milda Matilla, for injuries arising out of the administration of a contaminated injectable steroid of methylprednisolone acetate ("MPA") she received in October, 2012. Specifically, SSH seeking reimbursement in the amount of \$501,515.23 for extensive medical, therapeutic, and rehabilitative services rendered to her from December 27, 2012 through April 12, 2013.

We understand that Medicare has denied SSH's claims because your firm has asserted a products liability claim against the manufacturer of the tainted injection New England Compounding Pharmacy, Inc on Mrs. Matilla's behalf. We also know that on December 21, 2012, the pharmaceutical company filed for Chapter 11 bankruptcy protection in the Massachusetts District Bankruptcy Court and that all litigation against the pharmaceutical company , including Mrs. Matilla's lawsuit, has been "stayed" while the case is pending.

Please contact me at your convenience to discuss the status of your case for Mrs. Matilla and how we may work together to the mutual benefit of our respective clients. It's SSH's goal that Medicare reconsider its denial and refer its claims to a Medicare Secondary Payer Recovery Contractor ("MSPRC") for conditional payment.

Thanks,

**Michael C. Dennis, Esq.**
